Project Progress Log #2

Research:

I am nearly finished with my research for my project.

Self-Reflection:

Unsurprisingly, I am having the most fun with the self-reflection portion of my project. Below are a few terms I have found the past few weeks:

- "Whoagh"
- "Ough"
- "Screaming, crying, throwing up"
- "The kind of tired that sleep won't fix"
- "Hyperfixfucked"
- "Greebled"

Deliverable:

Below I have linked my GitHub repository that will have all the contents for my live site. The "read me" links to my research notes and potential study questions. Since I have not made as much progress as I would like in terms of styling the content on my site, the short-term goal as of right now is to make it look presentable (at least) before my presentation on Thursday.

Time:

4/4/23 – 1 hour

- Building website
- Started writing survey questions

4/6/23 – 1 hour 15 minutes

- Research
- Deliverable

4/7/23 – 30 minutes

- Research
- Deliverable

4/8/23 – 30 minutes

- Deliverable

4/10/23 – 2 hours

- Research
- Survey questions

Checkpoints:

My second checkpoint is April 11th. Since I am a bit behind, I had to do a bit of extra work the past week to catch up.

TO-DO:

- Style website.
- Add descriptions to terms.
- Prepare for presentation.
